Friend for Life Cancer Support Network Annual Report 2010

Facing cancer, with someone who's been there

Our Mission

To help persons recently diagnosed with cancer and their loved ones navigate the path

through diagnosis, treatment and recovery by pairing them with a trained survivor of a similar experience so they can face cancer with someone who's been there.

Friend for Life volunteers are cancer survivors and caregivers who are trained by healthcare professionals to prepare them to support others as they confront the emotional, psychological and practical uncertainties posed by a cancer diagnosis. Callers are matched with volunteers by diagnosis and course of treatment and, to the extent possible, by age and gender. At the end of 2010, Friend for Life volunteers numbered 210. These men and women represent survival of over 50 cancer types. They range in age from 19 to 88, with age at diagnosis occurring from 17 to 75.

PROGRAM SUCCESS

During 2010, Friend for Life...

- received 517 inquiries; inquiries since program inception totals 5,270
- volunteers and board members donated over 3,500 hours during 2010
- co-hosted volunteer training with the Leukemia and Lymphoma Society's *First Connections* program
- participated for the 4th consecutive year in the training of first-year students at the University of Louisville School of Medicine and for the 2nd year in a similar program with Galen College of Nursing
- expanded outreach to the local Hispanic community through recruitment of native Spanish speaking volunteers and collaboration with local organizations
- continued to expand outreach through social networking tools Facebook and Twitter
- continued to partner with other one-on-one cancer support organizations across the country in order to provide optimal peer matches for persons diagnosed with less common cancers

PROGRAM GOALS

Friend for Life seeks to...

- continue to provide cost-free peer support to persons diagnosed with cancer and to their loved ones
- continue to provide quality training and ongoing support and education to volunteers
- enhance outreach to minority and underserved populations
- expand and improve infrastructure to keep up with advances in cancer knowledge and treatment, and increased numbers of survivors

Friend for Life Volunteers by Diagnosis 2010

Cancer Type	#	Specifics
Anal	3	
Bladder	3	
Brain	7	Anaplastic Oligodendroglioma; Grade II Astrocytoma, Pineal Blastoma
Breast	68	
Caregiver	27	Spouses, children, parents with various cancers
Cervical	4	
Cholangiocarcinoma	1	
Colorectal	12	Stages I - IV, Epithelial tumor, adenocarcinoma
Endometrial	2	
Esophageal	3	
Fibrous Hystiocytoma	1	
Head & Neck	8	Larynx, Lymphoepithelioma, Oral, Salivary Gland, Throat
Hodgkins Lymphoma	9	Stages I - IIIB, Nodular Sclerosis
Kidney	3	Stage IV
Leukemia	5	ALL, CML, Hairy cell
Liver	1	-
Lung	8	Small cell, Non-small cell, Squamous Cell, Adenocarcinoma, Stages I-III
Lymphoma	17	Non-Hodgkins, Burkitt's, Cutaneous T-Cell, Diffuse Histiocytic, Follicular, Large Cell, Nodular Sclerosis, Diffuse B -Cell, Primary CNS, Stages I-IV
Melanoma	3	, , , ,
Multiple myeloma	5	
Myelodysplasia	1	
Nasopharyngeal	1	
Ovarian	9	Stages I-IV, Dysgerminoma, Epithelial Mucinous, mixed element (Endometrial carcinoma & Sarcoma), Juvenile Granulosa Cell
Pancreatic	1	
Prostate	13	
Sarcomas	2	Osteosarcoma, Liposarcoma
Testicular	6	,,,
Thyroid	4	Papillary, Papillary follicular mix
Vaginal	1	· · · · · · · · · · · · · · · · · · ·
<u> </u>	210	Total Volunteers as of December 31, 2010

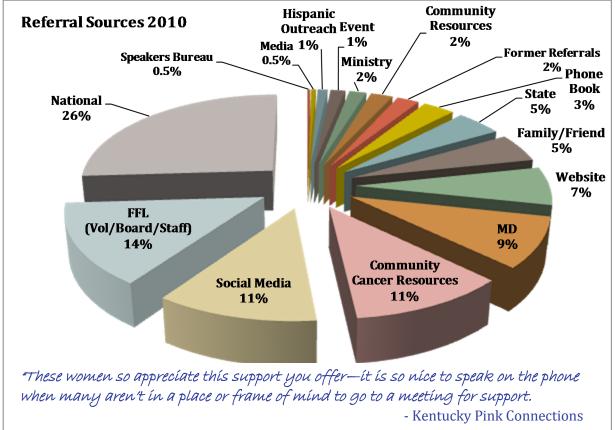

Additional Volunteer Characteristics

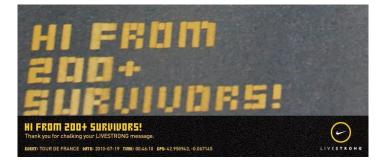

78 have had surgery138 have had chemotherapy99 have had radiation therapy18 have been diagnosed with more than one form of cancerLanguages spoken: Spanish, French, German, Italian, Hungarian, Indonesian, Hebrew, Creole

"Two persons called me within 2 days of my initial call. Their experiences they shared with me are invaluable—it really made my day! I continue to recall our conversations to help me through this 'bump in the road' of life."

Volunteer Adriana Meneghetti talks about Friend for Life with visitors to the annual Hispano/Latina Feria Anual de Salud in Louisville

We get the word out in all sorts of ways... Above: A message from FFL was sprayed on the pavement to inspire cyclists competing in the Tour de France . Right: Volunteer Blake Rosbury was interviewed on local radio

Clinical Training Opportunities

Since 2006, Friend for Life volunteers have played a role in the training of first-year students at the University of Louisville School of Medicine, providing a glimpse into the patient and caregiver perspective to future healthcare professionals. A similar program was initiated at Galen College of Nursing in 2009.

Feedback from medical and nursing school students and faculty:

"It's an education we cannot get with ICM [Introduction to Clinical Medicine]. We were finally able to hear a story in person. This was a great way to practice listening to patients, to putting professionalism learning in practice."

We will remember this case as our first *actual* patient interaction, and we will remember the importance of empathy, listening, professionalism... It reminded me of the need to not only learn scientific material but to be ready to apply it to real people and to be able to explain the science in layman's terms."

"It helped me realize that oncology is where I want to take my nursing career."

"It help me discover what I can do to better communicate with my patients."

Feedback from Friend for Life volunteers

"... interacting with the students, nursing or medical, is always good for me. I get more out of it than they do, but it is good for them too because of the exposure to personalities who are from other walks of life and who have experienced the fear of a deadly disease."

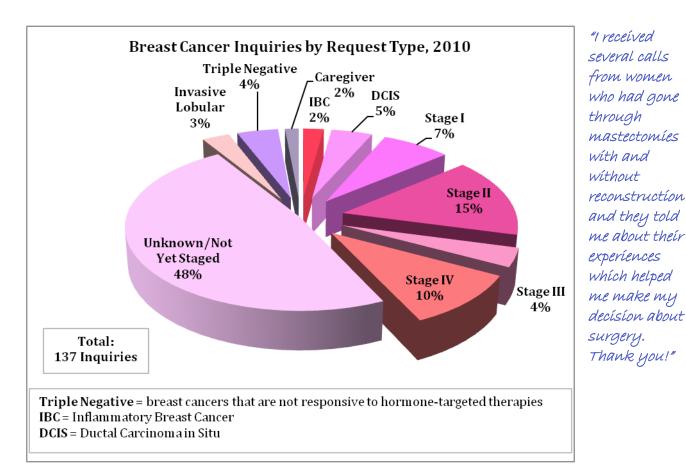

" I really enjoyed this experience with the nursing students. From the perspectives of both a survivor and a nurse, I believe it was a positive experience for all involved. I hope the nursing students will find caring for patients with cancer and cancer survivors a little less scary as they now know for themselves that it is not a death sentence, but an experience that makes you stronger."

Inquiries by Cancer Type/Site, 2010

Friend for Life receives requests for support for a wide variety of cancer types. The largest percentage of calls we receive are from women diagnosed with breast cancer. At the other end of the spectrum are rare cancers, numbering only one or two calls for the diagnoses below.

Peer Match Inquiries for Rare Cancers & Other Conditions 2010

- Angiomyolipoma/Metastatic Picoma
- Basal cell carcinoma
- Chordoma
- Hemophagocytic Lymphohistiocytosis
- Mesothelioma
- Myelopolycythemiavera
- Primary Amyloidosis
- Psoas Tumor
- Thymic Carcinoma
- Unknown Primary

- Aplastic Anemia
- Cartonoid of the Ear
- Heart Tumor
- Liver (primary)
- Myelodysplastic Syndrome
- Pineocytoma
- Primary Peritoneal
- Sacral Chordoma
- Thymoma
- Wilm's Tumor

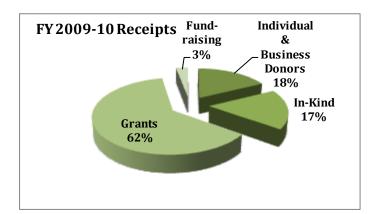

"Since my cancer is rare, I only heard from one survivor. But, she called when I was very discouraged and it meant a lot to me."
